06/2015 - 06/2017   *54.1%, Khammam*

SSC
Centurt Hi-profile School
06/2014 - 05/2015   *8.3 CGPA, Khammam*

COLLEGE PROJECTS

Analysis of women safety in india using machine learning
As a member of a team that conducted an analysis of women safety in India using machine learning, I was responsible for data collection, pre-processing, feature engineering, and applying classification algorithms to develop predictive models.
Software Tools :
- Python idel 3.7 version
- Anaconda 3.7
- Jupiter
- Google colab

Covid-19 future forecasting using machine larning
As a team leader, I developed a Covid-19 future forecasting model using machine learning as my major project during my undergraduate studies. I was responsible for data collection, preprocessing, building and training machine learning models, and collaborating with teammembers to interpret the results and suggest recommendations for policymakers and healthcare professionals.
Software Tools :
- IDE : Anaconda Jupyter
- Python

SKILLS

HTML   CSS   BootStrap
JavaScript   React JS   Python
